stormwater nitrogen loading and vulnerabilities in meeting TMDLs in Buzzards Bay and Cape Cod. Amount: \$402,461. PI: I. Valiela (J. Lloret status: Postdoctoral Scientist).

•
Is the recent decreased atmospheric nitrogen deposition improving water and vegetation quality in Waquoit Bay, MA? Amount: \$201,729. PIs: I. Valiela and J. Lloret.

•
Postdoctoral Fellowship (Salary award).

Bottomupis the way

. Member of the MBL Ecosystems Center Pod in URGE: Unlearning Racism in Geoscience Link

Co Editor of the 2018 2019 Ecosystems Center Annual Report: Link

. Member of the Advisory Committee for the State of the Waters: Cape Cod Project of the Association to Preserve Cape Cod

. Marine Biological Laboratory representative at the Nitrogen Footprint Tool Network Link

. Member of the planning committee for the 2018 SUCCESS (Shaping and Understanding Career Choices in Education, Science and Self) Workshops, Marine Biological Laboratory, Woods Hole, MA

. Participant in the December 2017 USEPA Southeast New England Program Steering Committee Meeting: EPA's New England Headquarters, Boston, MA

. Co organizer of the Ecosystems Center Spring Seminar Series, Marine Biological Laboratory, Woods Hole, MA
